COLD STORAGE REPORT
AS OF APRIL 1, 1943

Reports to the U. S. Dept. of Agriculture on perishable food items held in cold storage warehouses and meat packing plants on April 1, 1943, indicated that the only commodities showing increases during March were butter, shell and frozen eggs, and lard. Apples, frozen fruits and vegetables showed a normal seasonal decline during the month, while frozen poultry and meat stocks were reduced more rapidly than average. Cheese holdings which normally show increases at this period were reduced by significant amounts.

The into-storage movement of both shell and frozen eggs during March was unusually heavy, exceeding that of a year earlier and the 5-year (1938-42) average. April 1 stocks of shell eggs reached an all time high for this date, totaling 3,200,000 cases. Butter stocks, although increasing during the month by 4.1 million pounds, were below those of a year ago and the 5-year average.

Lard holdings reflected the same relative pattern as butter.

The space occupied in public cold storage warehouses increased for coolers and declined for freezers during March. Both coolers and freezers were reported as occupied to 61 percent of capacity, which compares with 57 and 64 percent respectively on March 1, 1943. It appears that the increased cooler occupancy which occurs chiefly in the central regions, is due to the heavy accumulation of shell eggs in that area.

Contents of April 1, 1943, Cold Storage Report

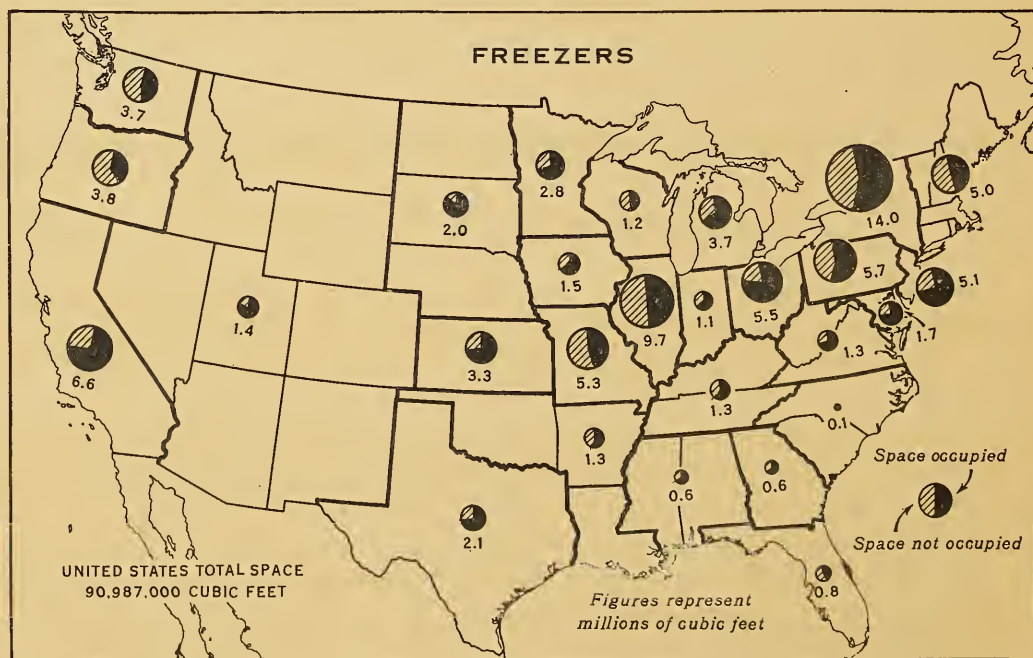

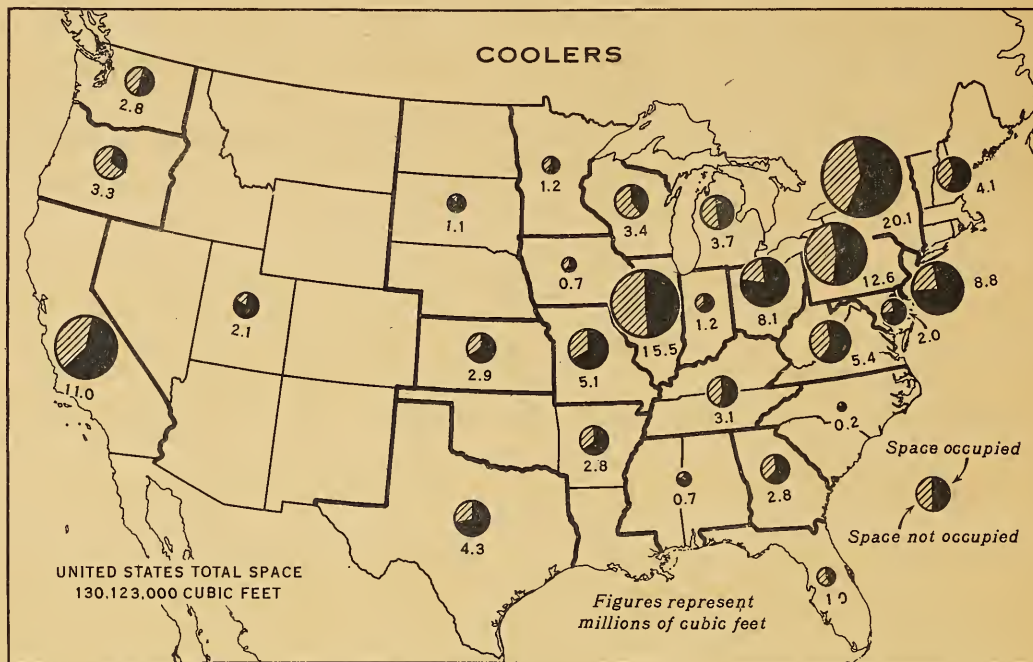

Separate tables appearing in this report represent holdings of the following groups of commodities on hand in cold storage warehouses and meat packing plants on April 1, 1943, with comparisons for previous related dates:

1/ Reported to the Department of Agriculture as of June 16, 1941.

2/ Percentages for the periods covered here were made as comparable as possible.

3/ Preliminary.

4/ Weighted average of the occupancy for geographic divisions using the corresponding net piling space as weights.

FRUITS AND VEGETABLES

April 1 cold storage holdings of apples were reported as totaling 9,372,000 bushels. This quantity is 1,165,000 bushels more than April 1, 1942, holdings but 340,000 bushels below the 5-year (1938-42) average.

Stocks of frozen fruits were 123,421,000 pounds or 3,439,000 pounds heavier than those of a year earlier and 22,980,000 pounds above average. Frozen vegetable holdings totaling 67,424,000 pounds were 5,643,000 pounds heavier than a year ago.

(See table on page 8 for April 1, 1943 holdings by geographic divisions)

DAIRY AND POULTRY PRODUCTS

Stocks of creamery butter on hand on April 1 totaled 16,402,000 pounds, representing a slight into-storage movement during March. Usually stocks decline at this period. April 1 holdings were 28,643,000 pounds below those on April 1, 1942, and 14,950,000 pounds less than the 5-year (1938-42) average.

Cheese stocks were reduced by 15,596,000 pounds during March. April 1 holdings totaling 77,783,000 pounds were 112,375,000 pounds below those of a year ago and 29,047,000 pounds below average.

Shell egg holdings totaled 3,200,000 cases and frozen eggs 98,773,000 pounds, or a total equivalent of 5,834,000 cases. Reasonably complete reports from egg driers indicate that included in the above figures are 790,000 cases of shell and 20,436,000 pounds of frozen eggs ear-marked for future drying.

(See table on page 9 for April 1, 1943 holdings by geographic divisions)

1/ Frozen eggs are converted on the basis of 37.5 pounds to the case.

2/ SPECIAL NOTE: 82 percent of total frozen eggs reported as of April 1, 1943, were classified as follows: Whites 23 percent; yolks 16 percent; and mixed 61 percent.

MEATS AND LARD

Total stocks of frozen and cured meats were reduced during March by 54,304,000 pounds. The 779 million pounds on hand April 1, were 85.1 million pounds below those of April 1 a year earlier and 11.8 million pounds below the 5-year (1938-42) average. Beef holdings were 97.1 million pounds, which were 50.4 million pounds below those of a year ago, but 16.7 million pounds above average. Pork stocks were reduced by 36.5 million pounds from March 1 to total 590.9 million on hand April 1. This is about half a million below last year's stocks and 28.3 million pounds below average.

Lard and rendered pork fat stocks were increased during the month by 5.5 million pounds. The 127.7 million pounds on hand April 1, however, were 54.3 million below the April 1, 1942, stocks and 76.3 million pounds below average.

(See table on page 9 for April 1, 1943 holdings by geographic divisions)
